Fun Ways to Practice Fact vs. Opinion

by Becky L. Spivey, M.Ed.

Use the following **Fact or Opinion?** activity with your child. Copy the following statements on note cards or paper. Have your child read or listen to each sentence. Then ask, "Do you think this statement is a fact or an opinion?" Regardless of the answer, have him/her tell you why he/she gave that answer. For the opinions, have your child tell you the word(s) that makes the statement an opinion. For facts, have him/her tell you how the statement may be proved.

For older children, some statements have a mixture of fact and opinion. (Younger children will respond to a mixture as being an opinion – which is correct.) Have your child tell you which part of the statement is fact and which part is an opinion and why. A statement mixing fact and opinion is, in essence, an opinion. The answers are in () at the end of each statement: Fact (f), Opinion (o), and Mixture (m).

****For further extension,** make up more sentences, read sentences from a newspaper, book, or magazine article and repeat the instructions for the activity above. Have your child read or listen to advertisements from the newspaper. Ask your child which statements are facts or opinions or tell you if there is a mixture of the two. Then have him/her explain why or what makes the statement a fact or opinion.
