

Introduction

Auditory Adventures™ Activity Pack is a complete set of lessons, games, and activities to help students practice auditory association, auditory discrimination, auditory memory, and auditory reception in a fun, interactive way. Each lesson targets a specific auditory processing area. The specific auditory areas targeted in this activities pack are:

Auditory Association

- Name the Category
- Opposites
- Analogies
- Absurdities
- Listening for the Main Idea
- Auditory Closure
- If-Then
- Inferences
- Action-Agent

Auditory Discrimination

- Syllable Awareness
- Rhyming
- Identification of Initial Sounds in Words
- Discrimination of Initial Sounds in Words
- Discrimination of Final Sounds in Words
- Sound Blending

Auditory Memory

- Memory for Words
- Following Directions
- Listening for Details
- Memory for Short Sentences
- Memory for Long Sentences

Auditory Reception

- Yes/No Questions

Prior to playing, the teacher chooses the lesson that is appropriate for the students' auditory weakness. (Lessons are on pages 1-32.) Then, the teacher selects a game board. Boards #1-12 are open-ended games, Boards #13 and #14 are specific games, Board #15 is a lotto game, Board #16 is a bingo game, and Boards #17 and #18 are barrier games. On each lesson page, materials for the lesson include the game board to be used. The teacher follows the game board instructions while working on the auditory skill(s). ("How to Play" directions are on pages 120-124.)

Auditory Adventures™ allows each student to focus on an appropriate auditory skill and level one at a time. For example, when playing Auditory Memory for Sentences, students practice only simple sentences before advancing to compound or complex sentences. By limiting the length of the sentence used in each game, students are given the opportunity to master one level of auditory memory before going on to the next set.

The activity sheets reinforce the lessons selected for each classroom or therapy session. These materials are ready to use with minimal preparation for both individual and group sessions. Blank master pages follow the activity sheets so that you can tailor the activities for each child's level. As students master the ability to process information auditorily, the instructor may encourage them to use auditory skills in daily activities.

Use *Auditory Adventures™ Activity Pack* to help your students achieve their IEP goals and objectives. Class work and therapy will be fun and rewarding and your students will enjoy listening!

Table of Contents

Lessons

Auditory Association Lessons	1-15
Name the Category	2-4
Opposites.....	5
Analogies	6
Absurdities	7
Listening for the Main Idea.....	8-9
Auditory Closure.....	10
If-Then.....	11
Inferences.....	12-13
Action-Agent.....	14-15
Auditory Discrimination Lessons	16-20
Syllable Awareness	16
Rhyming	17
Identification/Discrimination of Initial Sounds in Words.....	18
Discrimination of Final Sounds in Words	19
Sound Blending	20
