

FOR IMMEDIATE RELEASE

## Mom's Choice Honors *All About You, All About Me* Mobile App by Super Duper

Greenville, SC – May 10, 2012 – Super Duper Publications has received a [2012 Mom's Choice Award](#) for their [All About You, All About Me Fun Deck mobile app](#). This marks the sixth *Mom's Choice Award* for Super Duper this year.

The *Mom's Choice Awards (MCA)* establish the benchmark of excellence in family-friendly media, products, and services. Each year an esteemed panel of educators, media professionals, performing artists, producers, medical and business professionals, authors, scientists, librarians, parents, and children evaluate the latest educational materials. The MCA judges score each product submission on production quality, design, educational value, entertainment value, originality, appeal, and cost.

*All About You, All About Me* is a great app for parents and educators who work with their children on building important social skills," said Thomas Webber, Chairman/CEO and co-owner of Super Duper. "We are thrilled to have *Mom's Choice* recognize its value as a practical, fun, educational way to help children develop."

The [All About You, All About Me](#) application, for ages 4 to 11 (grades PreK-5), has the identical 56 picture images (with accompanying audio of each card text) found in the Super Duper *Fun Deck* that shares its name. Parents can select all 56 activities or just the ones they want their children to see. Players answer fundamental questions about getting to know themselves and the important people in their lives. The prompts include basic questions like, "What is your name?" and "What is your home address?" as well as open-ended statements like, "Tell me about your friends."

*All About You, All About Me Fun Deck* app is also ideal for the classroom. It has many teacher-friendly features, allowing educators to enter all of their students' names, track correct and incorrect responses for up to five students at a time, and the ability to email the results at the end of each session.

Super Duper offers many *Fun Deck* apps for children to learn grammar; develop reasoning, problem-solving, and social skills; practice sequencing and categorizing; and much more.

Super Duper creates enjoyable, engaging educational materials for children with special needs and communication or language delays and offers a wide variety of products for teachers, therapy professionals, and parents to use with children in a classroom, therapy setting, and at home.
