

FOR IMMEDIATE RELEASE

Super Duper Publications *Funzee*™ Software Wins Two Dr. Toy Awards

Greenville, SC – September 19, 2011 - Super Duper Publications has received two awards from *Dr. Toy* for *Funzee Everyday Go-Togethers* software. An interactive, learning program for children ages 4 to 9 (grades PreK-5) *Funzee* earned recognition as 2011 *100 Best Children's Products* and *10 Best High Tech Products*.

Every year, Dr. Stevanne Auerbach (a/k/a *Dr. Toy*), reviews several children's products based on such criteria as creativity, design, educational value, technical aspects, and most importantly, fun (just to name a few). An educator and toy advocate, Dr. Auerbach strongly believes in toys as tools for learning.

Funzee Everyday Go-Togethers software helps children strengthen their vocabulary and critical thinking skills in an entertaining way. With the help of *Funzee the Zebra*, students engage in interactive games while finding 72 pairs of photos that go-together (e.g. toothbrush/toothpaste).

Nancy, a teacher from St. Petersburg, Florida, said, "My students and I have greatly enjoyed *Funzee Everyday Go-Togethers*. I bought the product to use in group therapy with a SMART™ Board and it works very well for that. The photographs are clear. The objects are relevant."

Game scenarios include *Learn Go-Togethers*, *Bingo/Lotto Game*, and *Matching* for one player, and *Classroom Bingo/Lotto* or *Classroom Matching* for group play. Full-color photos on white backgrounds are in each game to help children recognize the objects easily.

Everyday Go-Togethers also includes reinforcement activities to keep children motivated. Teachers and parents can track data for an unlimited number of children, print progress reports, keep track of the items that players identify incorrectly during individual sessions, and even create, save, and print lotto and bingo boards.
