

Introduction

Webber® Season to Reason™ Year-Round Sentence Cards! contains 480 color-coded cards (120 for each season) to improve sentence building, vocabulary, and grammatical skills. All of the sentences relate to holidays and seasonal activities. Each season includes four card decks (25 cards with 5 bonus cards per deck):

1. **Complete a Sentence** – Students finish a sentence with an appropriate seasonal word.
2. **Create a Sentence** – Students create seasonal sentences using the given word. Each deck targets five adjectives, ten nouns, and ten verbs.
3. **Correct a Sentence** – Students read or listen to a sentence with a grammatical error and correct it. Each deck targets ten verbs, five irregular plurals, five pronouns, and five negation statements.
4. **Combine Sentences** – Students connect two sentences together using a conjunction (*and, or, but, so, because*).

Younger students will enjoy *completing* and *creating* sentences while older students will have fun *correcting* and *combining* sentences. Each of the four decks within a season has a fun, illustrated symbol on the back of the card (e.g., the symbols for fall are a football, leaf, school bus, and an apple). Target multiple skills by using two, three, or all four of the decks in a season, or give extra practice using a specific card type (i.e., Complete, Create, Correct, and Combine) from each of the seasons. Set also includes an instruction booklet with game ideas, 16 dividers (four per season) to keep cards separated, and a storage tin.

Game Ideas

Card Collector

Choose one of the four decks in a season and shuffle it. Place the cards facedown on the table. Player One chooses a card, answers, and places the card in a discard pile. Play continues in turn. If a player receives a bonus card, then he/she wins all the cards in the discard pile. Player with the most cards wins.

Seasonal Match

Choose a season and shuffle it. Deal five cards to each player and place the remaining cards facedown. Player One flips over the top card. If Player One has the same category of card in his/her hand (i.e., Complete, Create, Correct, or Combine), he/she completes the activity and discards that card. If Player One does not have a matching card, he/she draws a card from the deck. If Player One can play that card, he/she completes the activity and discards that card. Otherwise, it is Player Two's turn. Players may use Bonus Cards to change categories. If a Bonus Card is flipped over from the deck, then the player can choose any category. Play continues in turn. First player to discard all of his/her cards wins.

Maximum Sentence

Choose a season and use only the Complete and Create a Sentence decks, removing the bonus cards. Place the cards facedown. Separate the players into pairs. Have the students work together to write as many sentences as they can in three minutes. The team that creates the most sentences wins that round.

Sounds of the Seasons

Choose a season and use only the Correct and Combine a Sentence decks, removing the Bonus Cards. Place the cards facedown. The SLP/teacher reads the card. The first player to give the correct answer keeps the card. The player with the most cards wins.
