"Can-Do" Oral-Motor Gameboards were developed from our experience with preschool and school age children who demonstrate weak oral-motor functioning. We have designed the games to be fun, hands-on, easy to use, and motivational.

Before beginning the games, introduce the characters: Tony,

Tina, Danny Dog, Gerry Giraffe, Katie Cat, Manny Monkey, Peggy Pig, and Cassie Cow. Allow each player to choose a character token. Insert each character into a plastic stand provided.

Kids will have fun as they roll the die and move around the gameboards doing the exercises!

Please note some exercises require tongue depressors. These are available in cherry and grape flavors through Super Duper®!
